## Be Hempy - the power of nature for better wellbeing

Be Hempy is a Slovenian brand offering dietary supplements and cosmetic products made from industrial hemp, supported by our own therapeutic center and online platform for healthy and balanced living.

Our mission is clear: to help people achieve better health and a higher quality of life through the power of nature.

### We provide:

- ✓ Safe, natural and certified Slovenian hemp-based products.
- ✓ Hemp grown, harvested and processed in Slovenia, free from pesticides and herbicides.
- ✓ Our products are available in over 250 pharmacies and specialized stores across Slovenia.

### Be Hempy is more than a brand - it is a movement for natural health.

**Vision:** To help 1million people achieve better wellbeing and balance.

### Values:

- ✓ Honesty
- ✓ Customer care
- ✓ Continuous learning
- ✓ Quality & trust in nature

Since 2014. Tradition,  
quality and trust.

## WHY CHOOSE BE HEMPY? BECAUSE NATURE KNOWS BEST - AND WE LISTEN TO IT.

Trusted by more  
than 200,000  
satisfied  
customers.

Recommended  
by many  
doctors and  
pharmacists.

Satisfaction  
guarantee!

### Locally grown and produced in Slovenia.

We are committed to quality and sustainability - that's why we use locally grown hemp and work closely with Slovenian farmers.

### Crafted with passion and expertise.

Every product is the result of professional development, experience and a deep love for nature.

BE HEMPY team consists of a professional young collective who takes care of the correct use of our products. Pharmacists and consultants are always available in our advisory centre to advise you on how to improve your health.

For now, we offer professional advice absolutely free of charge and can be reached at **+386 70 606 570**.

BE HEMPY offers safe, natural and certified Slovenian hemp-based products.

Our products have been tried by every thirteenth Slovenian, and the number of satisfied users is growing every day.

Our mission is to help people improve their health and enhance the quality of their everyday life.

We offer dietary supplements, cosmetics and super-foods made from hemp.

All products come from controlled organic production, grown in Slovenia, without pesticides, hand-harvested and naturally dried.

The industrial hemp from which Be Hempy products are made is cultivated in such a way that it contains a minimum THC content and the full spectrum of phytocannabinoids.

**The allowed value of THC in hemp is less than 0.2% in Slovenia, so our products are legal.**

**EFFECTIVE. NATURAL. SAFE. LEGAL.**

# 1

We have a professionally trained advisory centre

For the sale of hemp products in Slovenia. Our mission is to help people, so our consultants make sure that each client is treated individually every day.

# 2

Local products

Produced and **made in Slovenia (EU)** - we also grow our own cannabis plantations.

# 3

 Our products are not tested on animals.

# 4

Be Hempy products are analysed for cannabinoid content

in reputable SEU laboratories. This ensures safe use of our products.

# 5

 Our products are made with heart.

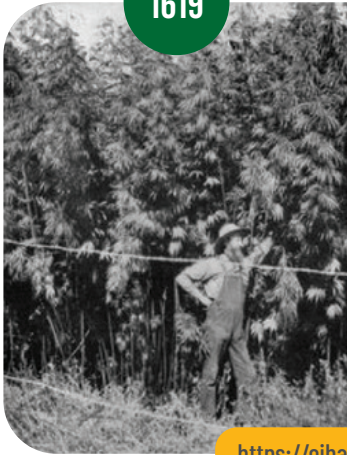

Cannabis is harvested by hand, and the products are made with great love.

# CANNABIS

Cannabis, a widely used plant for centuries, has in the 20th century become a criminalized plant. Due to the presence of THC (Tetrahydrocannabinol), cannabis was classified as a psychotropic substance under the 1961 United Nations Convention on Narcotic Drugs.

Cannabis has been undergoing a real rebirth in recent years. There are numerous surveys, seminars, public awareness and articles on the beneficial impact of cannabis on physical and mental health. New cannabis regulations are also in works. In 2019, we reached a new milestone, as cannabis with low THC content (up to 0.2%), its extracts and tinctures will be removed from the list of psychotropic substances.<sup>1</sup> CBD (Cannabidiol) and other phytocannabinoids are not psychoactive as opposed to THC.

# ENDOCANNABINOID SYSTEM “IN EMERGENCY”

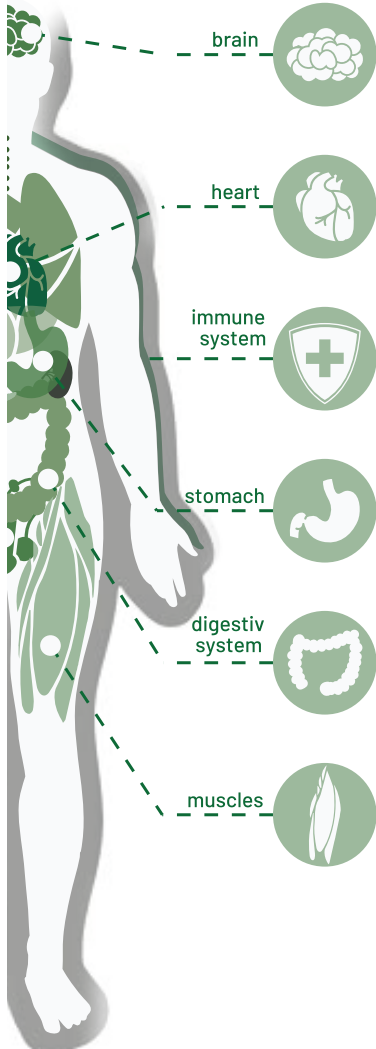

Cannabis phytocannabinoids bind to cannabinoid receptors (CBs) that are linked in the human body to the endogenous cannabinoid system (ECS). This is a very important physiological system in our body that we are still discovering and exploring intensively. The main task of the endocannabinoid system is to calm the processes in the body when they are too active. This way, the balance and homeostasis in the body are regulated and maintained.

## HOW DOES IT WORK?

The main task of the endocannabinoid system is homeostasis, which means the existence of a stable internal (cellular) environment in a dynamic, ever-changing, external environment. When an imbalance occurs, the ECS restores it to its original state. It regulates important bodily functions such as sleep, appetite, reproduction, fertility and memory and offers protection and prevention against the wrong stress response of the body.

Modern unhealthy lifestyle (chronic stress, poor nutrition, lack of movement, intake of toxins, consumption of a lot of medicines, radiation and other) is constantly depleting our endocannabinoid system. This leads to inadequate release of endocannabinoids. Cannabis phytocannabinoids are very similar to the endocannabinoids produced in our body. They bind to receptors in the endocannabinoid system. The body perceives them as its own. **Cannabis phytocannabinoids thus replace in the body the deficit of endocannabinoids, which are key in calming and balancing the bodily processes.**

## CANNABINOIDS AFFECT THE IMMUNE SYSTEMS AND NOT THE INDIVIDUAL DISEASES.

### IMMUNE SYSTEM

- weakness of the immune system
- different types of inflammations and viruses
- cancer and cancer chemotherapy
- autoimmune diseases.
- allergies and asthma
- fungal infection
- herpes and AIDS

### OTHER SYSTEMS

- arthritis and rheumatism
- muscular cramps
- glaucoma
- cardiovascular diseases
- high blood pressure

### GASTROINTESTINAL SYSTEM

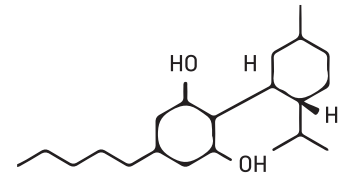

- stomach problems (cramps, vomiting, nausea and bloating)
- increased blood sugar
- chronic gastritis
- Crohn's disease

### NERVOUS SYSTEM

- acute and chronic pain
- multiple sclerosis,
- Parkinson's disease
- epilepsy
- Alzheimer's dementia
- migraines and headaches
- anorexia
- anxiety and depression, post-traumatic stress disorder
- insomnia
- cerebral palsy
- autism and ADHD
- fibromyalgia
- chronic fatigue

### SKIN

- skin inflammation
- acne
- psoriasis
- herpes
- atopic and contact dermatitis
- skin allergies
- itching and swelling due to insect bites

# 5 % CBD UNICANNA

**Dietary supplement, cannabis flower extract and cold pressed hemp oil, 10 ml / 30 ml.**

The best-selling 5% CBD drops are now also in spray form for easier dosing and without opening the bottle.

An excellent solution for use at work or on the road.

### STRUCTURE:

- extract from industrial hemp flowers (Cannabis sativa L. var. Sativa).

### CONTENT:

- 10 ml / 250 drops
- 30 ml / 750 drops
- minimum 500 / 1500 mg CBD
- less than 0,2 % of THC
- 1 drop contains 2 mg CBD

### SPRAY CONTENT:

- 10 ml / 84 sprays
- minimum 500 mg CBD
- less than 0,2 % of THC
- **1 spray contains 5.9 mg of CBD**

### MAIN BENEFITS:

- excellent assistance with acne and herpes;
- acts as a natural antibiotic and has antiviral activity;
- promotes the treatment of fungal infections;
- helps with oral inflammation and toothache;
- effective in healing burns and wounds, protecting the skin from unwanted bacterial ingress;
- helps with gastritis;
- relieves oesophageal wounds;
- strengthens the immune system
- helps with sleep problems;
- efficient against headaches.

### USAGE BASED ON OUR CUSTOMERS' EXPERIENCE:

**Drops:** Once or twice daily, place one to two drops under the tongue. Hold for 2 to 5 minutes under the tongue, then swallow. **Spray:** Once or twice daily, spray two to four times under the tongue. Hold for 2 to 5 minutes under the tongue, then swallow.

## 5 % CBD CANNA PROPOLIS

DROPS

**Dietary supplement, propolis solution, cannabis flower extract in cold pressed hemp oil, 10 ml.**

In the product, we added 5% propolis of Slovenian origin to the extract of hemp flowers. With this, we have upgraded the taste and benefits of both ingredients. The product is particularly desirable in the winter months. Due to its improved taste, it is also suitable for children.

It can be used on the skin and mucous membranes.

### STRUCTURE:

- 14 % alcohol solution of propolis
- extract from industrial hemp flowers (Cannabis sativa L. var. Sativa).

### MAIN BENEFITS:

- excellent assistance with acne and herpes;
- acts as a natural antibiotic and has antiviral activity;
- promotes the treatment of fungal infections
- helps with oral inflammation and toothache
- effective in healing burns and wounds, protecting the skin from unwanted bacterial ingress;
- helps with gastritis;
- relieves oesophageal wounds;
- strengthens the immune system
- helps with sleep problems;
- efficient against headaches.

### USAGE BASED ON OUR CUSTOMERS' EXPERIENCE:

Once or twice daily, place one to two drops under the tongue. Hold for 2 to 5 minutes under the tongue, then swallow.

### CONTENTS:

- 10 ml / 250 drops
- minimum 500 mg CBD
- less than 0,2 % of THC
- 1 drop contains 2 mg CBD

# 5 % CBD + CBN CANNA SLEEP SUPPORT

**Food supplement, industrial hemp extract in cold-pressed hemp seed oil, with added CBN, passionflower and natural terpenes, 10 ml.**

A natural evening support formula for people who find it hard to unwind, fall asleep, or wake up during the night.

Melatonin-free formula with no artificial sedation.

### COMPOSITION:

5% CBD + CBN Canna Sleep Support drops are a food supplement made from cold-pressed hemp seed oil and industrial hemp extract (*Cannabis sativa* L. var. *sativa*). The product contains 400 mg of CBD, 100 mg of CBN, and 400 mg of passionflower extract in a 10 ml bottle. It also contains natural terpenes: beta-caryophyllene, myrcene, linalool, and humulene.

The drops contain only plant-based ingredients and do not contain melatonin or synthetic additives.

### CONTENTS:

- 10 ml / approximately 250 drops
- 400 mg CBD
- 100 mg CBN
- 400 mg passionflower extract
- less than 0.2% THC
- 1 drop contains up to 2 mg of combined cannabinoids

**NEW**

### CUSTOMERS REPORT RELIEF FROM ISSUES SUCH AS:

- difficulty falling asleep;
- restless sleep and waking up during the night;
- evening tension and racing thoughts;
- a feeling of inner overstimulation after a stressful day;
- poorer recovery during sleep;
- fatigue and lack of energy due to poor sleep quality.

# 16 % CBD PASTE

Dietary supplement, CO2 extract of cannabis flowers.

## STRUCTURE:

Cannabis paste with 16% CBD is a dietary supplement made from legal industrial hemp (*Cannabis sativa* L. var. *Sativa*). Hemp extracts are produced by extraction with supercritical CO2. The main ingredients of cannabis paste are: the naturally occurring phytocannabinoid CBD (cannabidiol) and the full spectrum of phytocannabinoids, terpenoids and flavonoids.

## MAIN BENEFITS:

- calms anxiety, helps with depression and chronic insomnia;
- supports thyroid function;
- helps with lighter forms of insomnia
- relieves the symptoms of multiple sclerosis;
- prevents the development of cancer cells;
- reduces cholesterol levels;
- prevents the development of Alzheimer's, Parkinson's and Crohn's disease;
- relieves symptoms of cerebral palsy;
- relieves symptoms and helps with psoriasis;
- supports prostate function and reduces PSA (Prostatic Specific Antigen);
- relieves symptoms and helps with arthrosis and arthritis;
- relieves symptoms and helps with gout and lupus.

## USAGE ACCORDING TO OUR CUSTOMERS' EXPERIENCE:

Once or twice a day, squeeze a paste of 1 to 2 cm in length into the mouth. Keep it between 2 and 5 minutes under the tongue and then swallow.

## CONTENTS:

- 5 ml
- minimum 800 mg CBD
- less than 0,2 % of THC

## CBD HEMP FLOWER WITH ADDED VITAMINS A, D AND E

**Dietary supplement, vitamins and hemp flowers powdered and capsuled in a cellulose plant capsule.**

The combination of vitamins A, D and E helps to reduce oxidative stress in cells and contributes to the functioning of the immune system.

Hemp flowers contain naturally occurring phytocannabinoids.

### STRUCTURE:

- dried flowers of industrial hemp powder
- vitamin E - 283% RDI\* / daily dose
- vitamin A - 188% RDI\* / daily dose
- vitamin D - 400% RDI\* / daily dose

\*RDI - recommended daily intake

### MAIN BENEFITS:

- excellent support for the immune system;
- support for inflammatory processes in the body;
- support in everyday stress situations;
- energy increase in case of general fatigue;
- helps with stomach and digestive problems (relieves vomiting and nausea);
- affects the cardiovascular system (regulates cholesterol levels, regulates high blood pressure);
- relieves skin problems (antibacterial and anti-inflammatory activity, relieves dermatitis, soothes skin allergies);
- affects the nervous system (soothes, relieves anxiety and depression);
- reduces migraine problems.

### CONTENTS:

- 60 capsules
- 18 g hemp flowers
- **1 capsule contains at least 2 mg CBD and less than 0.2 % THC**

### RECOMMENDED DAILY QUANTITY:

One capsule per day should be taken with water, juice or other liquid during a meal.

# CBD BIO HEMP FLOWER IN CAPSULES

**Dietary supplement, hemp flowers powder, encased into a herbal cellulose capsule.**

In the production of Be Hempy bio hemp flowers, we use carefully selected hemp flowers from bio organic production, which are dried and finely mixed to powder. Thus, ground flowers, without fillers or anti-sticking agents, are capsuled into a herbal capsule (cellulose).

## STRUCTURE:

- dried flowers of industrial hemp powder (Cannabis sativa L. var. Sativa)

## CONTENTS:

- 60 capsules
- 18 g flowers
- **1 capsule contains at least 2 mg of naturally occurring CBD and less than 0.2% THC**

## MAIN BENEFITS:

- helps with stomach and digestive problems;
- reduces the chance of gastric ulceration (stomach sores);
- promotes the absorption of minerals;
- regulates cholesterol levels;
- lowers high blood pressure;
- participates in the detoxification of the body;
- support drops and traps which work perfectly together in the case of joint problems.

## USAGE ACCORDING TO OUR CUSTOMERS' EXPERIENCE:

Take 1 to 2 capsules per day. The capsule is taken during a meal with water, juice or other liquid.

# PROBICANNA

## CBD HEMP FLOWER WITH MICROBIOLOGICAL CULTURES

**Dietary supplement, unique blend of hemp flowers, microbiological cultures and vitamin C.** It contains fructooligosaccharides (FOS) and plant inulin – food for microbiological bacteria, which is essential for the successful ratio and growth of beneficial bacteria. The contents of the mixture are packaged in a so-called DR capsules (delayed release) which allows them to be broken down only in the intestine and not dissolved by gastric acid during the passage through the stomach. Introduced “good” microorganisms can thus successfully reproduce in the intestine.

### STRUCTURE:

- dried hemp flowers powder
- S. Boulardi yeast
- mixture of probiotic bacteria: Lactobacillus acidophilus, Bifidobacterium breve, Bifidobacterium infantis, Bifidobacterium longum
- mixture of probiotics: FOS and inulin
- vitamin C

### MAIN BENEFITS:

- strong support for the immune system;
- elimination of overproduced candida in the gastrointestinal tract;
- help with lactose hypersensitivity;
- eliminates bloating and indigestion;
- prevents diarrhoea associated with antibiotic therapy;
- promote the absorption of minerals, vitamins and other nutrients;
- strong support for inflammatory processes (urogenital, cutaneous and gastrointestinal inflammation)
- Improves the overall balance of good bacteria in the body
- relieves the symptoms of Crohn’s disease;
- DR capsule (delayed release) allows a smooth passage to the stomach and the release of “good” bacteria from the capsule only in the intestine.

### CONTENTS:

- 60 capsules
- 7.2 g hemp flowers
- **1 capsule contains 0.8 mg CBD and less than 0.2% THC**

### RECOMMENDED DAILY INTAKE QUANTITY:

Take two capsules a day, one in the morning and one in the evening. The capsule should be taken with water, juice or other liquid during a meal.

LESS THAN  
**0,2 %**  
THC

# STRESSO CANNA

## CBD WITH ADDED GLANDS AND VITAMINS AGAINST STRESS

StressoCanna capsules are a dietary supplement with a combination of four powerful ingredients (CBD-rich hemp, roots, head mushroom – Cordyceps, Ashwagandha) and vitamins B complex. They contribute to a better concentration, memory and brain function, while helping to relieve stress.

### STRUCTURE:

- dried flowers/peaks of industrial hemp powder,
- roots powder,
- mushroom-head powder,
- sleeping vitania (Ashwagandha) powder,
- niacin
- pantothenic acid
- riboflavin, pyridoxine, thiamine, folic acid, biotin, cobalamin.

### CONTENT:

60 capsules

### RECOMMENDED DAILY INTAKE QUANTITY:

Take two capsules a day. The capsule should be taken with water, juice or other liquid during a meal.

### MAIN BENEFITS:

- support in everyday stress situations – management of physical and mental stress;
- helps improve concentration, memory and brain function;
- improves overall well-being and regenerates the body while raising energy;
- regulate mood and sleep;
- helps with adrenal function and reduces symptoms of burnout;
- supports the immune system;
- helps in weight control;
- vitamin B1, B2, B3 play a role in heart function, energy release in metabolism, nervous system function, normal psychological function, protection of cells from oxidative stress, reduction of fatigue and exhaustion, in the synthesis and metabolism of steroid hormones and contribute to better mental state.

# CBD HEMP OINTMENT

## WITH CANNA IMMORTELLE

The ointment is completely natural, **it does not contain emulsifiers, antioxidants, preservatives, it is free of parabens and mineral oils.** Made on the basis of coconut oil and beeswax, and to a lesser extent hemp oil and shea butter are added. The main ingredients in the ointment are CBD, which is the main active ingredient in hemp, and the essential oil of sapwood, which rejuvenates the skin.

### MAIN BENEFITS:

- mitigation of acne skin problems;
- relief of symptoms of dermatitis and psoriasis;
- excellent help with cracked and dry skin;
- help with herpes;
- help with stretch marks;
- relieves from insects and insect bites;
- cushioning of baggies under the eyes;
- helps with inflamed and painful joints, arthritis;
- eliminates skin fungus problems;
- reduces scars and bruises;
- excellent care and protection of the skin even after tattooing.

### USAGE:

Once or twice a day, apply the ointment on the affected places. After opening the ointment, use within six months.

### CONTENTS:

- 30 ml or 50 ml
- 4 % hemp flower extract in hemp oil

### STRUCTURE:

- extract of hemp flowers in hemp oil
- coconut oil
- karate butter
- beeswax
- essential sage oil
- essential laurel oil
- bio essential rose palm oil
- bio essential atlas cedar oil

# CANNA FLEX CBD GEL

## WITH HEMP RESIN AND GLUCOSAMINE

Contains a carefully selected combination of natural extracts, essential oils and cannabinoids for **instant relief and relaxation of muscles and joints**. The key ingredients - CBD, glucosamine and boswellia - work synergistically to improve mobility and enhance overall wellbeing.

### MAIN BENEFITS:

- helps relieve joint and muscle discomfort
- supports regeneration after sport and physical strain
- reduces the feeling of stiffness and tension
- pleasant scent and soothing sensation
- promotes better skin microcirculation
- contains natural cannabinoids (CBD) for additional support
- maintains joint mobility and elasticity
- suitable for everyday use

### HOW TO USE:

Apply once or twice daily to the affected areas (knees, shoulders, back, joints).  
 Massage in circular movements until fully absorbed.  
 Wash hands thoroughly after use.

### CONTENT:

- 100 ml
- high concentration of active ingredients and CBD extract

### INGREDIENTS:

- glucosamine sulfate
- chondroitin sulfate
- MSM
- boswellia serrata
- menthol
- eucalyptus essential oil
- mint essential oil
- capsaicin
- hemp oil
- CBD extract (full spectrum)

# HUSKED HEMP SEEDS

**Excellent source of omega-3, -6 and -9 fatty acids.**

Among all seeds, hemp boasts the highest nutritional value. Within, we find the ideal ratio of omega-3 omega-6 to omega-9 fats.

These fats are very important for the healthy development of children and contribute to the better functioning of memory.

Seeds also contain dietary fiber, plant proteins, vitamins, minerals and enzymes.

## STRUCTURE:

- 100 % husked cannabis seeds  
(Cannabis sativa L. var. Sativa)

## CONTENTS:

- husked seeds 200 g

## MAIN BENEFITS:

- they represent an excellent source of easily digestible proteins, amino acids, fats, vitamins and minerals;
- they are an excellent source of fatty acids;
- containing more than 30 % protein;
- contribute to the maintenance of muscle mass and the maintenance of healthy bones and are therefore also suitable for athletes;
- contribute to the maintenance of normal blood cholesterol;
- the beneficial effect is achieved by a daily intake of at least 10 g of omega-3 alpha linolenic acid (ALA).

## APPLICATION:

Add 20 g - 30 g of edible hemp seeds to flakes, bread, sweet or salty pastries, salads, yoghurt, cottage cheese, fruit and vegetable pulps and various soups. Husked hemp seeds are raw food and therefore also excellent as a single snack.

# HEMP PROTEINS

## Defatted powdered industrial hemp seeds.

They are a highly protein “super” food. The proteins are obtained by grinding hemp seeds from which the cold expelling hemp oil was previously extracted. They are one of the most complete and nutritious plant sources of protein, contain essential fatty acids omega-3 and omega-6 and are rich in dietary fiber. They contain a high percentage of antioxidants, important minerals, vitamins and many other nutrients, including phytosterols.

### CONTENTS:

- 250g defatted powdered industrial hemp seeds
- nutritional value in 100g
- energy value 1630 Kj / 386 kcal

### APPLICATION:

For general well-being, consume 1 to 2 tablespoons of protein a day as a single drink or sprinkle them on oat, corn or millet flakes. When baking pastry, you can replace 25% of the flour with hemp proteins, and 10%-20% when baking a pizza. For athletes with strenuous training, we recommend 3 tablespoons 3x a day. For optimal nutrient utilization, athletes should consume the powder 30 minutes before training and again 30 minutes after completing training.

# CBD CANNABIS FLOWER TEA

**Available in bulk or filtered bags.**

Our cannabis is grown in Slovenia, cultivated without the use of pesticides and herbicides. When making tea, we do not use hemp leaves, but only hemp flowers. Tea from industrial hemp flowers does not contain caffeine, opiates or psychoactive substances (less than 0,2 % THC).

It is suitable for daily drinking as it cleanses the urinary tract, bladder, kidneys, and partly the liver. Tea soothes, relieves stress and raises life energy. It's very good for the prostate and against urinary incontinence.

## STRUCTURE:

- 100 % dried edible hemp flowers (Cannabis sativa L. var. Sativa)

## MAIN BENEFITS:

- calms and relaxes;
- acts as an anti-stress agent;
- cleanses the body;
- provides support for beneficial sleep;
- supports the immune system;
- supports the gastrointestinal tract and cleanses the urinary tract;
- offers support in cardiovascular diseases.

## APPLICATION:

Pour 2-3 dl of hot water on one teaspoon of hemp tea or one filter tea bag, to which you previously added fat (a drop of oil, a piece of butter, etc.). Leave it for 3-5 minutes, then filter and sweeten it as desired. Cannabinoids are fat-soluble fat molecules. Therefore, we recommend that you immediately add a fat component to the hot water, which extracts the cannabinoids from the dried flowers.

## CONTENTS:

- 35 g / bulk
- 14 g / 20 filter bags of 0.7 g
- flowers contain up to 0,5 % of naturally occurring CBD and less than 0,2 % of THC

# CBD ESPRESSO COFFEE WITH HEMP FLOWER

**CBD coffee is intended for the preparation of espresso or Turkish coffee.**

The ground CBD espresso coffee can be made in the form of doses in special pouches. This packaging allows the coffee to fully retain its aroma and freshness, making it even easier to use. The exact dose in the sachet is suitable for 1 cup of coffee.

## CONTENTS:

- 20 sachets of 8 g. Net quantity: 160 g
- Sachets. Net amount: 200 g.

## MAIN BENEFITS:

The basic ingredient of most of our products are hemp tips, which contain naturally occurring cannabinoids, CBD and CBN.

### **CBD, however, acts on the peripheral nervous system:**

- awakens the body;
- calms the mind;
- raises energy;
- raises focus;
- improves memory;
- relieves anxiety and depression;
- relieves insomnia.

## APPLICATION:

CBD coffee is designed for making espresso, filter, flour or Turkish coffee.

## STRUCTURE:

Mixture of the highest quality ground roasted coffee with ground hemp tips. Hemp (*Cannabis sativa* L.var.*sativa*) is produced without the use of fertilisers and pesticides. Industrial cannabis peaks have no psychoactive effects. Coffee contains at least 130 mb CBD, CBDA and CBG and less than 0.2% THC.

### Lea 25:

»Today I received a call from my personal caretaker and counselor, who made my day just right. You are one of the few who care so much about your customers and keep in touch with them. You really are the best! Now, my experience ... I'm 18 years old and I lost my appetite and a lot of weight due to stress, which led to anorexia. The problems kept accumulating: poor sleep, stress, depression, no appetite, osteoporosis, even my fear of vomiting increased, so I ate a little, because I was afraid that if I ate anything, I would vomit. After taking CBD drops, my sleep improved, my appetite increased, I felt less scared, and everyone noticed that I was now glowing with joy, because I was always so sad before. I thank you again from the bottom of my heart. Don't worry, Be Hempy!«

### Mary 71:

»CBD resin has helped me raise the quality of my life.

My overall well-being is better, I can walk and sleep better, so my life is much better and happier.«

### John 50:

»I helped myself with the drops to relieve the migraine headaches that plagued me for at least 3 years. Before that, I spent a lot of money on Lecadol and Aspirins, which I bought at the pharmacy. After 2 months of cooking, I completely eliminated the problem.«

### Claudio 62:

»This year in February I started taking CBD drops. I took them for two months and took a break. In the month of June, I underwent surgery at the hospital where my spleen was removed. Ten days before the procedure, I started taking drops again, took them with me to the hospital and continued to use them after the removal. After the removal of the spleen, I did not have any problems or inflammation, as the wound also healed nicely.«

### Patricio 93:

»I have been using Be Hempy products since the very beginning. These are 5% hemp CBD drops, hemp tea and peeled hemp seeds that I enjoy at breakfast. Cannabis has improved my digestion the most, which is alpha and omega of health . I haven't had the digestion I have now in 80 years!

I drink hemp and herbal tea now on a daily basis. My memory is as good as 50 years old, my mood is exceptional and I sleep very well. I can certainly attribute the excellent well-being to cannabis products. I've had type 2 diabetes and high blood pressure for 20 years, and I've noticed that cannabis products help me regulate and stabilize both.«

### Maria 42:

»Ever since I was a kid, I've had problems with dry skin and a very strong psoriasis all over my body (mostly in the elbows, knees and head). I've taken all sorts of pills and been to specialists, and nothing helped me much. At the suggestion of my sister, I began to use CBD and lubricate myself in the most affected areas. After three months of medication, my condition improved so much that my skin no longer flaked, felt itchy and burned. There are only slight white spots left in the areas where the psoriasis was the worst. Thanks!«
